The mission of the New Mexico Allied Council on Tobacco (NMACT) is to advocate for proven tobacco use prevention policies through statewide partnerships to reduce disease and death from commercial tobacco abuse.

Chronic Disease Prevention Council

Purpose: To serve as a coordinating body for addressing chronic disease prevention in New Mexico.

Mission: To reduce common risk factors for the chronic diseases* of arthritis, cancer, cardiovascular disease, diabetes, lung disease, and osteoporosis by:

- Advocating for prevention policies and programs;
Facilitating collaboration among agencies and organizations working to prevent and/or manage chronic disease;
Supporting initiatives to understand, identify, and address social determinants that impact chronic disease.

*As identified by the National Association of Chronic Disease Directors.
