Join us for a discussion on the vaping epidemic and how it is affecting our youth. Youth panelists will share personal stories and insights into the harmful effects of vaping on their peers and communities. The panelists will also highlight the deceptive marketing tactics employed by big tobacco companies and offer valuable advice on how to effectively advocate against vaping.	TBD	TBD
02:00-03:00 PM		
Youth Priority Population Track #3: The Race Against Nicotine: Emerging Products and Youth Tobacco (virtual speaker) - Bryan Coleman, Truth Initiative	Policy & Advocacy in Public Health Track #3: The Poisoning of America: Vapes, BHO, Fentanyl - Stephanie Siete, Community Bridges, Inc.	Variable Issues in Tobacco Control Track #3: An Overview of the Juul Litigation Settlements: Holding the E-Cigarette Giant Accountable for Targeting Youth (virtual speaker)– Marisa Katz, Public Health Law Center
This presentation will take a close look at current trends in commercial tobacco products and how they are impacting youth and young adults. Participants will also learn how to get involved with Truth Initiative's programs and implement youth-led activism in their local communities. (actions & emotions).	This class will focus on those original low potency drugs progressing into the synthetic, super strength drugs of today. Smoking is out and vaping is in, whether it is nicotine or chemicals of marijuana. Attend this seminar to learn and discuss this constant evolution. Walk away with information, resources, and connections.	Juul rocketed to the top of the U.S. e-cigarette market five years ago on the popularity of flavors like mango, mint, and crème brûlée. This session will provide an overview of the recent state attorney general and multidistrict litigation settlements, including school district settlements, and the broader implications for public health beyond just holding Juul accountable.
